

## CONCEPT

Opacarophilia from latin means to love or to have passion for sunsets, looking for that special place when you travel to see the best possible sunset. 'Opaca' encapsulates a beautiful sunset and freezes it forever in a 3D scene, rendering it by glitching part of that scene into an abstract illustration.

## SPECIFICATIONS

Material: Aluminum frame (AISI 304 2B) & Backlight PVC fabric

Emission: Diffuse & Direct light

Environment use: Interior

Potency: 140W

Voltage: 220V-240V

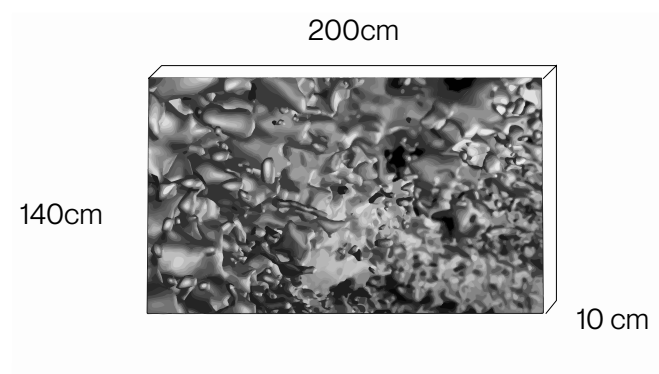

LED Temperature: 4000K

Dimmable: Yes

Remote: RF Wireless

Smart Home: Yes

## DIMENSIONS

The product light output may differ from the original digital illustration, since it is affected by the custom LED's temperature.
